Kidd was struck by the Lipscomb car on April 2s at Dineen and Leigh Street. He claimed that the defendant was negligent in not warning him of his approach. He was taken to a hospital, suffering more from the acid turns than from anything cise.

Several cities, notably Richmond, Norfolk, Roanoke and Petersburg, will suffer heavily in revenue by the new apportionment. After waging a losing fight against the bill in the General asembly the cities interested attacked the constitutionality of the act before the State Corporation Commission, the the State Corporation Commission, the body which controls the assessment of the rallways. The commission rendered an opinion last year declaring the bill unconstitutional.

The test suit was brought by the city of Petersburg to provent the Seaboard Air Line Rallway and the Atlantic Coast Line Pallway and the Atlantic

Delegate Martin Williams, patron of the 1912 rolling stock will, has introduced in the present General Assembly a new bill, modeled to conform to the suggestions made by the State Corporation Commission, which will teprive the cities of almost every cent of the tax. The bill passed the House by a big majority, but is still in committee in the Senate. If the Senate acts favorably on the new bill the decision of the Court of Appeals in the validity of the 1912 act will be of no practical value.
